Art Unit: 2826

Serial Number: 09/822093 Attorney's Docket #: SLA0494

Filing Date: 3/30/01;

Applicant: Ulrich

Examiner: Alexander Williams

Applicant's election of Group I (claims 1 to 12) in Paper # 6, filed 9/14/03, has been acknowledged.

This application contains claims 13 to 26 drawn to an invention non-elected without traverse in Paper No. 7.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The drawings are objected to because figure 1 should be labeled "Prior Art."

Correction is required.

DETAILED ACTION

Election/Restrictions

A further restriction requirement is detailed below:

This application contains claims directed to the following patentably distinct species of the claimed invention: Any one species or one set of drawing of the same species in figures 2-13.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Art Unit: 2826

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
